2019 NISG General Election
Questions Regarding Intent to Run

1. Why are you running for this position?
I am running for a Senate seat under the College of Business because I have a ton of new ideas for UNI to make it more welcoming, diverse, fun, organization than it already is. UNI is a great community filled with wonderful people and I want to make sure every student's voice is heard and through this position I would make it my duty to make sure students' voices are being heard at NISG because everyones' voice is important.

2. Why do you believe you are qualified for this position?
I believe I am qualified for this position because I have been apart of many leadership opportunities and I have been deeply involved into student organizations. Previously in high school I served on my student council and I carried that practice with me to college now currently serving on a Senate seat for the College of Business. I ask questions concerning others to make sure they are heard and this shows I care a lot about what the students have to say.

3. What do you believe are some important issues facing the UNI student body?
Some important issues the UNI Student body is facing the most in my eyes is that student's voices are not being heard. These are several issues happening around campus that are either easy or hard fixes and sometime leaders don't seem them but students do. There needs to be more communication between the student body and leaders and I want to provide a way where student can be heard by all leaders.

4. What goals would you like to accomplish in your position?
There are many goals I want to accomplish in my position. One of these being making the advising program for students feel more personal and streamlined. As you may know there are potential wait times to see an adviser during registration. I want to streamline this process while maintaining the personal feel the advisors already give to students. I also want to start sessions or emails that are being sent out once a month to students asking them certain questions to help better a part of UNI and leave a box open for them to express what they want from UNI.

5. How will you accomplish these goals?
I will accomplish these goals by setting up an appointment with the head of advising, and I will bring my own personal ideas as well as other students to help fix or better advising during this time.

For my second goal I would work with the University or NIGS to get together an email system that would send out these "polls" and questions to all students of UNI.
